The word "Bonanza," now used so frequently in connection with allver mining in Nevada, is applied in mining to a very rich find of gold or silver, as in the Comstock mines; nautically it means a fair wind at sea. The word seems to be in a fair way of incorporation into the English language.

A GRAND SIGHT .- On Tuesday night of last week, there was a heavy snowstorm on Hawali, which completely covered the summit of the three stately mountains on that Island. On the low lands it rained very hard there as it did here in Honolula, and the lightning played brilliantly over the island, followed by incessant and terrific claps of thunder. In the morning, the three mountains were completely white with snow for about one-third the distance down, say ten miles from the summits, in each diection. Those who saw it describe it as one of the grandest and most beautiful sights ever seen-three mountains capped with snow in the tropics!

FAST TIME.-Mr. George Mactarlane performed a feat in inter-island traveling, last week, which is morning, the natives reported the steamer in Maalaca Bay, several hours ahead of her usual time. No time was to be lost: so mounting his horse and bidding the party good-bye at 6:15, he rode at full speed down the mountain, making the distance of twenty miles in two hours and three quarters, reach ing the shore just in time to get aboard, at nine o'clock. Late Foreign News,

The German Reichstag closed Saturday, Jan. 30. Russia has recognized Alfonso as King of Spain. Six thousand shipwrights at Newcastle-on-Tyne

have struck. The Hospodar of Montenegro has withdrawn all demands against Turkey. Queen Victoria, who is at Osborne, has summoned

the Cabinet Ministers to come there at once The coal-miners' lock-out in South Wales has begun One hundred and twenty thousand men are idle. Edward B. Surden, Baron St. Lennards, formerly Lord Chancellor of England, has died, aged 94.

The German Vederal Council has empowered Bismarck to conclude an extradition treaty with the A Vienna special says the Pope has thanked Em peror Francis Joseph for his considerate application

of the Austrian Reichstag laws. Great Britain has declined to send a representative to the St. Petersburgh International Code Conference alleging that no practical benefit can be expected. A dispatch from Rome says Garibaldi has informed

the King that he has not come to Rome with political intentions, but to forward the material welfare of his constituents. The Spanish Army of the North continues to advance. It has taken Montreal and Lerge. The relief

of Pampeluna is considered certain; the Carlists are abandoning the route without resistance The "Little Tariff Bill" which has just been Battens, passed by Congress, gives much gratification to the manufacturing districts of the Union. It was intended to give relief to the industrial interests, by re-

moving or changing the duties on the raw material. It is thought manufacturers will be enabled, on the strength of it, to start up their factories which have so long been closed, and to give employment to many thousands of workmen who are now idle. Whatever may be the effect on California wine growers of its placing a specific duty of 40 cents a gallon on all foreign wine imported in casks, American industry generally expects a great deal of benefit from the enactment of

WASHINGTON, January 26th .- Negotiations for a reciprocity treaty with the Sandwich Islands are practically completed, and it will be sent to the Sen ate in the course of a few days. At the instance of the Hawaiian Island Commissioners, it has been provided that the treaty shall not go into effect until the House of Representatives gives its sanction by appropriate legislation. The question recently raised by a resolution of the Vermont Legislature as to the right of the President and Senate alone to decide such matters of ercial policy, will thus be avoided. The Hawaiian Commissioners have also suggested the insertion of a clause prohibiting the levying of export duties on any article named in the treaty. This has been done in view of the action of the Government of Brazil, which when the United States removed the import duty on coffee, levied an export duty of 5 centra pound,

MAKING ALPONSO KING .- Two wonders were accom plished by events in Spain. First, the bloodless manner in which the nation became a Republic; and second, the facility with which it passed back again into a monarchy. Primo de Rivera, Captain-Genera of Madrid, has the credit of bringing about the latter change. He announced in Serrano his intention of placing Alfonso on the throne. At first the President objected-so the story runs-and attempted to dissuade Rivera from his object, but Rivera was inflexible. Serrano then visited the Army of the North of Spain, where he found the Generals agreeable to the proposi tion but unwilling to fight for Alfonso's cause. At this juncture three battalions under Martinez Campo declared for the son of Isabella, which example was followed by the armies of the North and Centre. This was enough. Rivers was in command at Madrid, where a provisional Ministry was at once organized, and the restoration of the monarchy accomplished These two chapters, brief but full of incident, are yet to be followed by a third, which remains to be writ-

London, January 27th .- A Vienna dispatch says Spain has paid Germany an indemnity which settles

the Gustav affair. A Berlin dispatch to the Cologne Gazette says Bismarck is suffering from nervous affection. It is rumored in the upper house that the Premier intends to retire shortly after his sixtieth birthday.

China. T'Oung-Chi, the Emperor of China is dead. He scended the throne in 1861, when only 5 years of age At the time of his death he was 19. His legitimate essor is a little boy only 5 years of age.

The Pall Mall Gazette says a private telegram from China confirms the reported death of the Emperor,

the throne is settled.

Italy. Roxe, Jan. 30th .- The interview to-day between General Garibaldi and King Victor Emanuel was of a most cordial character. Several topics were discussed. and General Garibaldi submitted to His Majesty a plan demonstrating the feasibility of improving the sanitary condition of the Campagna di Roma, a marshy provof Italy, but now almost destitute of inhabitants on account of the malaria arising from the marsh lands. Garibaldi diselaims political intentions in accepting

seat in the Italian Parliament. The English and Americans in Rome gave a banquet Garibaldi on the night of Feb. 4th. A special from Rome says a Masonic Temple is to be inaugurated in that city early in February with very

imposing ceremonies. Masonic digultaries from Great Britain, France and Spain, are expected to attend. Late Foreign Summary.

The London Times believes that the present peac among European nations is soon to be broken. By the terms of the Postal Treaty at Herne, all accounts between the United States and Europe, except France, for inter-national correspondence, are abolished; thus lessening the expense to the United

States about \$250,000. In the Beecher-Tilton case, recently, on crossexamination the witness, Moulton, did not appear to much advantage testifying that he was persuaded to lie, and did lie, thus nullifying his general evidence. The Committee of Ways and Means considered the tariff bill to-day, and took a number of votes, which developed the fact that the proposition to tax ten and coffee will not carry as an independent proposition, but may come in if other articles now free are in-

A man borrowed a part of a buttle of Bishop Soule's Liniment of his neighbor, for immediate use. A few days after, he bought three large buttles, returned a full bottle for the one borrowed, and told his neighbor that he would not be without Bishop Soule's Liniment in his house if it cost \$250 per bettle. Another, who had suffered twelve years from a lame knoe, was curted with Bishop Soule's Liniment, and said it was worth \$1,000 per bettle. Another, who had suffered many years from lameness, so that he could not walk without enterthes, writes that he is cursed by using Bishop Soule's Liniment, and says that you consect provise if Wherever Bishop Soule's Liniment is known, the Sonle's Licinment, and says that you consot presses it too highly. Another, who had suffered from rhesmatiam four years, and could get no relief, said his friends, whorever he went, advised him to use Bishop Soule's Liniment. He had heard it so many times, that he had get out of patience with them, and would hay a bottle, and try it, but he knew it would not do him any could and whenever any one ever recommended Choicest Meats from the Finest Herds bottle, and try it, but he knew it would not do him any good; and whenever any one ever recommended it to him again be would tell them he had used it, and it was no better than anything else. Well, he bought one bottle; soon after, two buttles more. He was completely cured of his rheumatism, and although he is not a dealer in medicine, he has bought of as and sold forcy-six decreases. Another was says: "I thank God, and Bishop Soule's Liniment, that after four years suffering from Sciatica, I am a well man again." I tried it, and it completely cured me. You ought to let everybody know what Bishop Soule's Liniment will de; it is the best thing in the world." Another, "I had a very severe attack of solation; was under my physician's care for a long time without any henefit.
